

SYSTEM 94

BLACK

TRAVEL AUTO BAG Co. Inc. • 264 West 40th STREET • NEW YORK CITY, NY 10018-1574

System 94 is an integrated wall system that offers the convenience of complete versatility for hard or soft lines. You can change from handrails to shelves to face-outs without ever having to repair your wall. The mobility of the uprights with a simple loosening of two screws in the anchor plate allows reconfiguration of walls for seasonal changes.

Because System 94 is movable, there is never a need to mar a wall with new screw holes, no plaster or paint to use to cover-up a former wall position. Just slide the anchor plate along the channel, lock it in position and you are ready to sell merchandise.

Rectangular Post

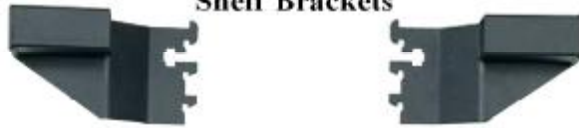

WDM93/MAB - matte black
WDM93/MTW - matte white
 93" Post with right angle bracket for mounting to aluminum wall channel. (#WAC8/W) - Post 1" x 2" tubing with 1/2" slots on 1" centers. Levelers included.

To use the 48" Duron Shelf: Two left shelf brackets and two right shelf brackets must be used with shelf support (SUP47). Rectangular post WDM93 is slotted on both sides. One shelf bracket should be mounted in front and one mounted in the back of post.
